

TECHNICAL DATASHEET – PORTABLE PRINTER M220

1. General Overview

The M220 model is a portable thermal printer designed for mobile and on-the-go printing. It is compact, lightweight, and suitable for both professional and personal applications. Its advanced thermal technology ensures efficient, ink-free printing with stable performance.

2. Product Information

Brand : Phomemo
Model : M220
Printing Type : Thermal Printing
Function : Portable printing via USB / Bluetooth

3. Technical Specifications

Power & Electrical

Power Input : DC 5V / 2A
Battery : Built-in Lithium Battery 7.4V – 2200mAh – 16.28Wh
Charging Interface: USB Type-C

Printing Performance

Resolution : 203 DPI
Printing Method : Thermal Printing
Printing Speed : 50 mm/s
Paper Size Supported: 20-75 mm

Connectivity

Connection Modes : - USB (PC connection) - Bluetooth

Included Accessories

USB-A to USB-C cable (0.8 m)

4. Physical Characteristics

Dimensions: 125*119*62.8 mm
Weight: 328 g
